

Antigua & Barbuda Global Youth Tobacco Survey (GYTS) **FACT SHEET**

The Antigua-Barbuda GYTS includes data on prevalence of cigarette and other tobacco use as well as information on five determinants of tobacco use: access/availability and price, environmental tobacco smoke exposure (ETS), cessation, media and advertising, and school curriculum. These determinants are some of the components Antigua-Barbuda could include in a comprehensive tobacco control program.

The Antigua-Barbuda GYTS was a school-based survey of students in forms 1-4, conducted in 2000. A two-stage

cluster sample design was used to produce representative data for all of Antigua-Barbuda. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100%, the student response rate was 91.7%, and the overall response rate was 91.7%. A total of 1795 students participated in the Antigua-Barbuda GYTS.

Prevalence

- 23.6% of students had ever smoked cigarettes (Male = 29.2%, Female = 18.2%)
- 13.5% currently use any tobacco product (Male = 15.5%, Female = 11.3%)
- 5.2% currently smoke cigarettes (Male = 5.9%, Female = 4.2%)
- 10.1% currently use other tobacco products (Male = 12.1%, Female = 8.3%)
- 8.6% of never smokers are likely to initiate smoking next year

Knowledge and Attitudes

- 27.2% think boys and 15.9% think girls who smoke have more friends
- 6.9% think boys and 6.3% think girls who smoke look more attractive

Access and Availability - Current Smokers

- 32.7% usually smoke at home
- 13.5% buy cigarettes in a store
- 59.1% who bought cigarettes in a store were NOT refused purchase because of their age

Environmental Tobacco Smoke

- 18.6% live in homes where others smoke
- 45.9% are around others who smoke in places outside their home
- 73.2% think smoking should be banned from public places
- 64.1% think smoke from others is harmful to them
- 19.7% have one or more parents who smoke
- 5.9% have most or all friends who smoke

Cessation - Current Smokers

- 77.9% want to stop smoking
- 70.6% tried to stop smoking during the past year
- 54.9% have ever received help to stop smoking

Media and Advertising

- 76.3% saw anti-smoking media messages in the past 30 days
- 73.5% saw pro-cigarette ads on billboards in the past 30 days
- 57.2% saw pro-cigarette ads in newspapers or magazines in the past 30 days
- 15.0% have an object with a cigarette brand logo
